

Perimeter Security:

How Epic iO Deep Insights Transforms Data into Actionable Insights

EPIC iO DeepInsights™ is an artificial intelligence of things (AIoT) platform that transforms internet of things (IoT) data into actionable insights for smarter, safer and more connected environments. It combines AI-powered analytics, real-time visualization and edge computing to enable automation, predictive capabilities and scalability — all powered by Intel® technology.

Key features:

- **Centralized data contextualization:** Aggregate and interpret data from sensors, cameras and third-party systems.
- **Automation and predictive analytics:** Improve operational efficiency and safety.
- **Edge processing:** Analyze data locally for instant decision-making.
- **Scalable architecture:** Deploy across multiple sites with ease.
- **Intel® optimization:** High-performance compute for AI workloads.

Benefits:

- **Faster time-to-insight:** Real-time monitoring and alerts.
- **Enhanced safety:** Proactively detects anomalies and threats.
- **Operational efficiency:** Automates routine tasks and reduces errors.
- **Scalability:** Flexible architecture for multi-site deployments.

Industry and Market Insights

Public safety agencies face rising threats and limited resources, driving demand for advanced technologies that deliver real-time situational awareness, faster response and stronger community protection. Organizations increasingly adopt managed security services and cloud-based platforms to ensure 24/7 coverage, compliance and robust cybersecurity. EPIC iO DeepInsights™ provides integrated intelligence and scalable, easy-to-deploy solutions that help agencies stay ahead of evolving risks while optimizing resources.

Use Cases

Smart cities and public safety
Crowd and traffic management
Real-time alerts for crime prevention

Partner Revenue Opportunities

- **Managed services:** 24/7 security operations center (SOC) support, remote monitoring and compliance solutions for recurring revenue.
- **Vertical expansion:** Cross-sell into utilities, education, healthcare and transportation using proven public safety use cases.
- **Rapid deployment:** Turnkey solutions enable fast time-to-value and scalable growth.

Target Partner Profile

Partners serving public safety agencies and municipalities focused on situational awareness, rapid response and secure, scalable deployments.

Conversation Starters With Your Customers
