

Harmony Email & Collaboration Platform

Collaboration Tool Protection

Overview:

Check Point Harmony Email & Collaboration is a comprehensive security solution that protects your organization's collaboration tools and email from advanced cyber threats. With seamless integration into Microsoft 365, Google Workspace and other popular collaboration platforms, it provides robust protection against phishing, malware, ransomware and data leaks.

Protection for Collaboration Tools:

Check Point Harmony extends its protection beyond email to cover a wide range of collaboration tools, ensuring that your organization's communication and file-sharing activities are secure from cyber threats. Supported platforms include:

Microsoft Teams

Slack

Google Workspace

Google
Workspace

SharePoint

OneDrive

Microsoft Suite

Dropbox

Box

Citrix Share File

Google Suite

Key Features:

1. Advanced Phishing Protection

- Utilizes cutting-edge Natural Language Processing (NLP) and machine learning to detect and block sophisticated phishing attempts before they reach users' inboxes.
- Provides real-time analysis and threat intelligence to identify and mitigate phishing attacks.

2. Real-Time Malware Analysis

- Employs advanced AI and machine learning algorithms to analyze and block malicious attachments and links in real-time.
- Protects against zero-day threats and ensures that malware is quarantined before it can cause harm.

3. Data Leak Prevention (DLP)

- Monitors and controls the flow of sensitive data within email and collaboration tools to prevent unauthorized sharing.
- Enforces customizable DLP policies based on predefined and custom data types to safeguard confidential information.

4. Account Takeover Protection

- Detects and blocks unauthorized access to user accounts through real-time prevention and historical breach detection.
- Utilizes adaptive false positive filtering to minimize disruptions to legitimate users.

Deployment and Integration:

Seamless Integration:

- Easily integrates with existing email and collaboration platforms.

Scalable Solution:

- Designed to scale with your organization's needs, providing consistent protection as your collaboration environment grows.

More info:

Check Point Harmony Email & Collaboration is a powerful solution for protecting your organization's collaboration tools and email from advanced cyber threats.

With comprehensive security features, real-time threat intelligence, seamless integration, and more, Harmony ensures that your communication and collaboration activities stay secure.
