

Cohesity Essentials

Midsize business solution with Enterprise-grade cyber resilience.

Your midsize business faces enterprise-level threats such as ransomware, data exfiltration, compliance pressure, and operational downtime, without the headcount and resources of a large IT team.

You need protection that is powerful, practical, and cost-effective.

Cohesity Essentials delivers enterprise-grade cyber resilience for midsize businesses without enterprise-level complexity or overhead.

Comprehensive protection across your entire environment

Your data lives everywhere — your resilience strategy should too. With Cohesity Essentials you receive:

- Protection across on-prem, multicloud, and SaaS workloads
- Coverage for Microsoft 365 and 100s of other modern applications
- Integrated cyber vaulting, data isolation, and advanced data security
- Robust recovery from operational errors, disasters, and cyberattacks
- Orchestrated recovery for faster, more confident restores

This isn't a patchwork of basic tools.

It's a unified platform built to protect everything — efficiently.

Enterprise-grade security without the complexity

Seventy-six percent of organizations have experienced a breach in the past year with most threat actors targeting backups. Cohesity Essentials includes comprehensive data security with:

- Zero-trust architecture
- Immutable backups
- AI-driven anomaly detection
- Threat containment
- Role-based access controls and multi-factor authentication

Bottom line: Cohesity Essentials empowers you to protect your data confidently — wherever it lives — with enterprise-grade cyber resilience designed for the way modern midsize businesses operate.

Recover from cyber attacks with confidence — without adding operational burden.

Key Benefits

- **Protection**
 - Protect and secure on-prem, Cloud, and SaaS
 - Eliminate protection blindspots
- **Security**
 - Isolate protected data for secure recovery
 - Identify threats sooner and recover from breaches 2x faster
- **Cost-efficiency**
 - Store backup data more efficiently
 - Reduce TCO up to 40%¹

Cost-effective protection. Optimized investment.

Cohesity Essentials is designed to deliver powerful protection while optimizing your investment.

- Efficient data handling, reducing storage requirements
- Platform consolidation, lowering infrastructure footprint
- Centralized management through a single, modern console
- AI-powered Copilot to simplify administration
- Predictable pricing that supports accurate forecasting and long-term planning

Flexible deployment to match your strategy.

 **Essentials M365** – Cohesity-managed protection for Microsoft SaaS deployments

 **Essentials Virtual Edition** – Self-managed protection for on-prem and cloud workloads

 **Essentials Appliance** – Integrated hardware and software for turnkey, cyber-hardened simplicity

Deploy as SaaS, self-managed virtual edition, or appliance-based infrastructure—whatever supports your architecture today and your growth tomorrow.
