Strategic Trainings

Led by vendors, Strategic Trainings walk partners through a focused and relevant topic, which could include anything from a step-by-step training to a review of a new capability and how to utilize it.

Think Tanks

Virtual Think Tanks guide a select group of partners through a fun, interactive activity, followed by a conversation led by the vendor host to engage with the partners.

Roundtables

Five times a year we host an hour-long session focused on either innovation or operational excellence. You can join to hear from an expert panel and then break into peer groups to discuss and network.
