

# Enter a new Era of Digital Learning with Dell Devices Powered by Windows 11

The events of the past three years have affected every dimension of our lives, and education was hard-hit.

## A Need for Innovation in Education

Recent studies show that, in a new era of blended learning, educators must accomplish more with less:

Despite massive shifts in the K-12 education space, the needs of students and faculty members haven't changed. Now, more than ever, they need tools to create and collaborate securely and at scale – whether they're at school or online.

 <h3>Students Must</h3> <ul style="list-style-type: none"><li>✓ Access technology that prepares them for the future</li><li>✓ Avoid distracting tech and focus on learning</li><li>✓ Communicate and collaborate with classmates at school or online</li></ul>	 <h3>Teachers Must</h3> <ul style="list-style-type: none"><li>✓ Personalize learning for students of all abilities &amp; learning styles</li><li>✓ Enable learning and engagement from almost anywhere</li><li>✓ Maximize class time for instruction &amp; minimize troubleshooting</li></ul>	 <h3>Administrators Must</h3> <ul style="list-style-type: none"><li>✓ Promote equitable access to digital learning for all children</li><li>✓ Offer devices to all students to advance learning</li><li>✓ Balance tight public-sector or independent school tech budgets</li></ul>	 <h3>IT Teams Must</h3> <ul style="list-style-type: none"><li>✓ Manage and deploy faculty and student devices remotely</li><li>✓ Safeguard student and teacher data and identities</li><li>✓ Protect school data and devices</li></ul>
