

# Why Dell's Education Portfolio and Windows 11 for K-12 Educators?

Education has transformed. Digital, blended learning is here to stay. But your students' educational needs haven't changed. They must collaborate with their classmates and teachers—securely and at scale—whether at school or online.

These dynamics mean faculty members must rise to meet a new set of challenges:

70%

of educators are concerned about their ability to deliver engaging, high-value learning experiences\*

## Teachers

- ✓ Personalize learning for students of all abilities and learning styles
- ✓ Enable learning and engagement from almost anywhere
- ✓ Maximize class time for instruction and minimize troubleshooting

## Administrators

- ✓ Promote equitable access to digital learning for children of all backgrounds
- ✓ Offer devices to all students to advance learning
- ✓ Balance tight public-sector or independent school tech budgets

## IT teams

- ✓ Manage and deploy devices remotely
- ✓ Safeguard student and teacher data and identities
- ✓ Keep school data and devices secure from almost anywhere

Dell and Microsoft come together to meet the challenge.

# Dell's Education Portfolio and Windows 11 – Crafted with the Needs of Educators in Mind

Dell and Microsoft have reimagined Windows for a new era of the digital classroom and blended learning.

## ✓ Meaningful learning for every child, in any location

Windows 11 is the most inclusively designed Windows ever, with greater accessibility and more built-in learning tools and user controls than ever before. Give your faculty members the ability to accelerate learning and ensure every student keeps up, thanks to its:

**EXPERIENCES**

**FEEDBACK**

**ANALYTICS FEATURES**

When paired with the best-in-class, purpose-built **Dell Latitude 3000 Series**—designed to withstand spills and tumbles—teachers can allow students to access learning materials independently, regardless of their ability, income, language, location, and identity.

## ✓ Tech that's simple to deploy, manage, and secure

Learning that happens anywhere needs IT management that can be everywhere. With Dell and Windows 11, it's easy to deploy and manage devices—everything from **Dell laptops and tablets, OptiPlex and All-in-Ones to immersive Dell Interactive Touch Projectors**—from anywhere.

In addition, you're running **software with built-in threat protection** that helps detect and block malware and protects students from unsafe web content and downloads.

## ✓ Gain performance on affordable devices that are built for education

With Dell's Education Portfolio and Windows 11, administrators can make their budgets go further by selecting from a suite of **low-cost, kid-proof, cloud-first devices running on intuitive, secure software**—and designed with education in mind.

Dell and Microsoft have reimagined Windows for a new era of the digital classroom. Our goal is to help educators unlock the full potential of every student. Windows 11 is a powerful tool that supports learning, collaboration, and creativity – all in a secure and trusted environment.
