

Dell Technologies recommends Windows 11 Pro for business.

## Dell devices with Windows 11 Pro.

Modern security and management for Federal customers.

### Now is the right time for Federal agencies to move to Windows 11.

As agencies and civil servants adapt to a more flexible and remote work style, keeping Federal assets and data secure becomes paramount. Our TAA Dell devices featuring the Windows 11 OS allow for the ultimate in management and access, no matter the location. Intuitive workflows. Modern security. Management ease. The evolution of the PC.

For Federal IT teams, life just got a bit easier. Protect, enable and enforce access seamlessly across the enterprise, while allowing for customization to meet specific user and policy requirements. Dell Latitude notebooks featuring Windows 11 bring you the reliability and management of a business solution with security features only available with a modern operating system. All this, and a sustainability profile second to none, including bio-based materials, aluminum and carbon fiber chassis and post consumer recycled materials for keyboards all shipped in sustainable packaging.

We can help government IT administrators easily protect, enable and enforce access seamlessly, while allowing for customization to meet specific user and policy requirements. Dell Latitude notebooks are designed with the environment in mind, continuing to innovate with the use of sustainable materials including the expansion of bio-based materials, carbon fiber and post-consumer recycled materials throughout the portfolio.

Support for Windows 10 will end **October 14, 2025.**
