

# Your TD SYNnex Data, Now in Outlook & Teams.

Work stays where you work. The **Digital Bridge Microsoft Apps Plugin** streams TD SYNnex pricing, inventory, promos, order tracking, invoices, subscriptions, and the all-new My Business Dashboard into Outlook and Teams. One sign-on, zero context switching—just the data and people you need in the apps you already use.

## Features That Empower Your Productivity

### One Install, Two Apps

One plugin, one sign-on, shared history. Pick up in Outlook exactly where you left off in Teams.

### My Business Dashboard

Credit details, order summaries and snapshots of your TD SYNnex programs, such as StreamOne Stellr & RenewSolv.

### Manage Subscriptions

Renewals, usage, key dates, and status on licenses from StreamOne Stellr.

### Instant Part Search

Type a MFG Part #. Get live price, promos, inventory, and logistics instantly.

### Order Status & Invoices

Paste a PO #. Track shipments and download invoice PDFs in seconds.

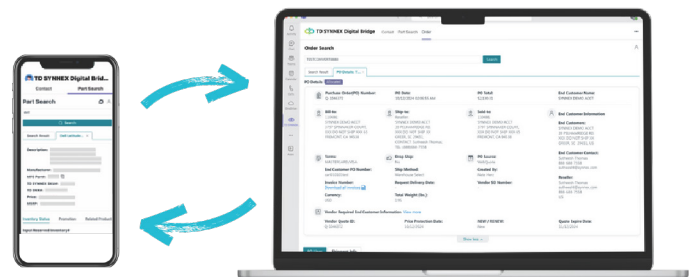

### Find Contacts

Direct phone / email for your credit, sales and support reps.

## The New Unified Microsoft Apps Plugin

Microsoft's unified "Apps" framework lets one plugin run everywhere Outlook and Teams do – desktop, web, and mobile – so every TD SYNnex partner gets the same fast experience, no matter which Microsoft app they open first.
