

Introducing Pixel 9a

Pixel 9a

Key selling points

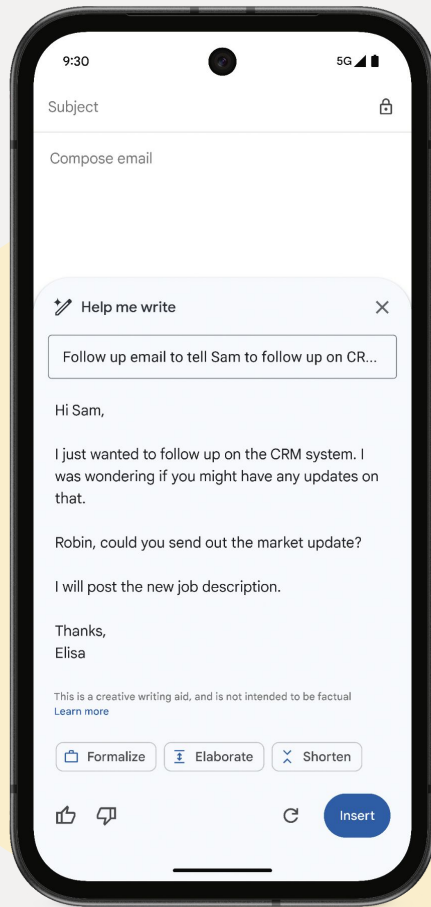

Accomplish more with Pixel 9a

Maximize impact, minimize effort

Gemini helps your team accomplish more with less effort, streamlining tasks like crafting emails and summarizing your inbox.¹ With the new saved info feature, share your preferences for tailored responses to your business role and preferences—without the need for constant reminders. You're in control to view, edit, or delete info anytime.²

¹ Features may differ depending on subscription, and may not be available based on corporate account settings. Compatible accounts required. Google Workspace extension must be enabled. Results and country availability may vary. Check responses for accuracy.

² Google One AI Premium Plan subscription and browser for set up required. Gemini Advanced is available for ages 18+. Availability may vary by device, country, and language. Results for illustrative purposes and may vary. Check responses for accuracy. This feature is only available globally in English to Gemini Advanced subscribers via Google one AI Premium Plan.

Accomplish more with Pixel 9a

Stay ahead with smarter notes

Stay organized, stay informed, and stay ahead with Pixel 9a. The Summarize feature in the Recorder app turns your recorded conversations, interviews, and presentations into clear summaries of key points.¹ Plus, you can have Summarize with Gemini recap your inbox and other lengthy documents, highlighting what matters most and flagging any actions you need to take.²

¹ Available on select devices, languages, and countries. Works with compatible accounts and some features may not be available based on corporate account settings. Check responses for accuracy.

² Features may differ depending on subscription, and may not be available based on corporate account settings. Compatible accounts required. Google Workspace extension must be enabled. Results and country availability may vary. Check responses for accuracy.

Pixel 9a

Key selling points

Trust Pixel 9a to get you through your workday

Choose a device that can keep up

Your battery should be one less thing to worry about. Pixel's all-day battery¹ keeps you powered through back-to-back meetings, while adaptive battery technology uses machine learning to optimize power.

Even if you're juggling multiple work apps, Pixel ensures that less-used apps aren't draining your battery in the background, so you stay charged longer.

1 Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of other features. Battery testing conducted on a major US carrier network in California in late 2024 on pre-production hardware and software using default settings. Tests began with phones fully charged. Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower. Over time, Pixel software will manage battery performance to help maintain battery health as your battery ages. Learn more g.co/pixel/batteryhealth

Key selling points

Circle, tap, and search

Need information fast? Pixel can help you find it. Circle to Search lets you circle, highlight, scribble, or tap anything on your screen to pull up details instantly—no app-switching required.¹

¹ Requires internet connection and compatible devices, apps, and surfaces. Results may vary depending on visual matches.

Pixel 9a

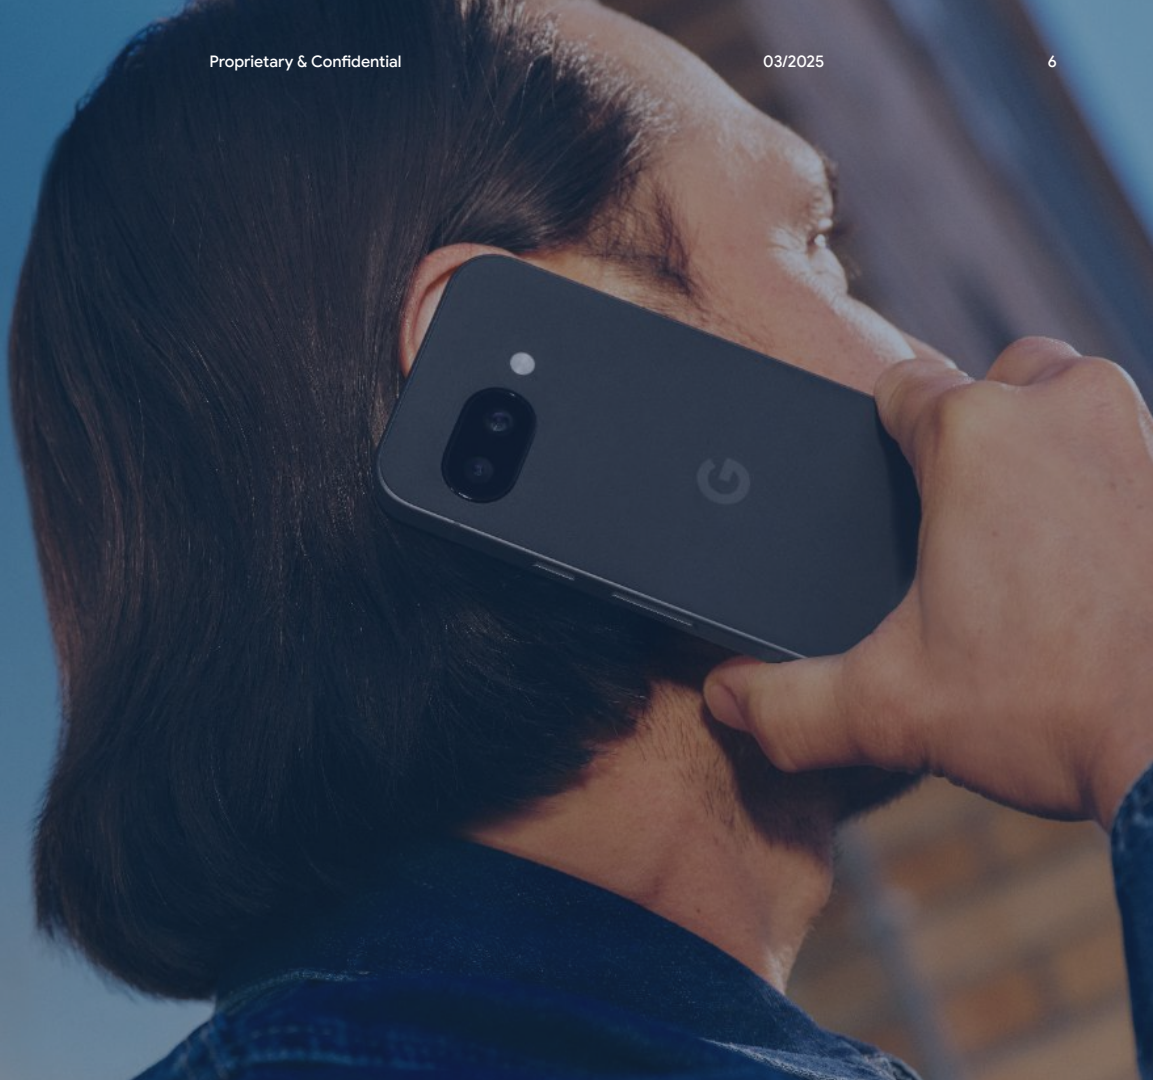

Key selling points

Separate business from personal

With Pixel, you can focus on your presentation without the worry of personal messages popping up. Android Work Profile keeps your work and personal life separate—your organization manages work apps and data, while your personal apps and information are kept private.

Plus, with Pixel Security & Privacy Settings and Private Space¹, you have more control over your sensitive information, whether it's securing apps in a dedicated locked area or managing privacy controls.

¹ Available on Pixel 6 and newer Pixel phones.

Pixel 9a

Key selling points

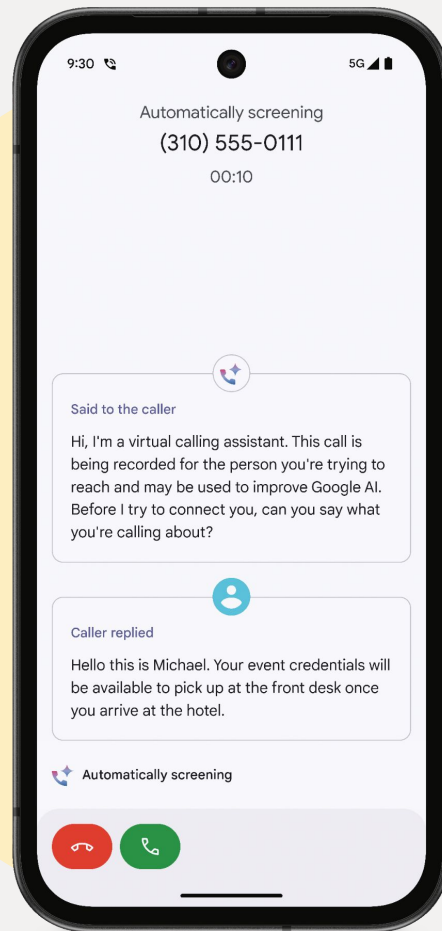

Stay secure with scam and spam protection

Pixel provides built-in protections that automatically scan and alert you to potential scams from phone calls¹, texts, emails, and links.

With features such as Call Screen¹, you can screen calls smarter with live transcripts of your screened conversations so you know if you want to pick up.²

¹ Not available in all languages or countries. See g.co/pixel/callassist for details.

² Automatic call screening view available on Pixel 4 and newer Pixel phones in English in the US. See g.co/pixel/callassist for details.

Flatter camera bar

Processor

Google Tensor G4

Connectivity

5G + Wifi 6e + Bluetooth® 5.3

Power

Typical 5100 mAh
(minimum 5000 mAh)⁶
Fast Charging⁷
Wireless Charging (Qi-certified)⁸

¹ Not available for all cameras, apps, or modes.

² Screen has rounded corners. When measured diagonally as a rectangle, screen is 6.3 inches. Actual viewable area is less. Dimension may vary by configuration and manufacturing process.

³ HDR brightness measured at 100% on-pixel ratio. Peak brightness measured at 5% on-pixel ratio.

⁴ Not available for all apps or content.

⁵ Storage specifications refer to capacity before formatting. Actual formatted capacity will be less.

⁶ Estimate of typical capacity based upon testing and expected cell behavior. Over time, Pixel software will manage battery performance to help maintain battery health as your battery ages. See g.co/pixel/batteryhealth for details.

⁷ Up to 23 watts (wired charging). Based upon use of the Google 45W USB-C® Charger plugged into a wall outlet. Actual results may be slower. Adapters sold separately.

⁸ Wireless charging rate up to 7.5W with Qi-certified EPP chargers (sold separately). Actual results may be slower.
