# Announcing ProLiant Gen11 Servers From TD SYNnex.

Digital transformation is essential — if valuable data is trapped in legacy systems, security becomes a constant (and expensive) concern. TD SYNnex and HPE Compute can help you build the foundation of future hybrid strategies with HPE's new Gen11 servers. Extend the benefits of advanced cloud operations to your customers and give them more choices to optimize workloads.

**Optimized  
workload  
performance**

**Intuitive cloud  
operating  
experience**

**Delivered as a  
service**

**Trusted security  
by design**

**Don't wait. Learn more about the advanced capabilities of  
HPE Gen11 servers today.**
