

# Award-winning classroom management software

## Guide learning

Encourage positive redirection and keep students safe with easy-to-use monitoring features, including screen monitoring, limit web, and blank screen.

## Promote collaboration

Easily share your screen with the class to distribute materials, administer quizzes and polls, and highlight outstanding student work.

## Maximize teaching time

Manage multiple activities within one simple platform and customize your settings to access frequently used features.

## Features

LanSchool offers the most comprehensive classroom management features to help teachers create meaningful classroom experiences on any device. Popular features include:

### Screen monitoring

Teachers can easily guide learning by viewing every student monitor – or switching to view individual screens.

### Blank screen

With the touch of a button, educators can shift student attention by blanking screens and locking devices.

### Push website

Instantly launch the same webpage on every device, making it simple for students to navigate to the correct URL.

### Limit web

Help students focus by limiting access to approved websites and disabling internet access during tests and quizzes.

### Messaging

Increase engagement by answering students' individual questions — or by sending messages out to the entire class.

### Share screen

Teachers can easily share their screens across all student devices, capturing attention and saving valuable time.
