# TRANSFORM YOUR iPad INTO A WORK FROM HOME PRODUCTIVITY MACHINE

The iPad® has rapidly changed the game when it comes to working remotely or on the move. Where once being out of the office meant work came to a halt, the portability of the iPad makes it even more flexible than a laptop for productivity in any location. Combined with the right accessories, the lightweight design and simple connectivity of the iPad enables you to take your office with you, helping you communicate, collaborate, and create as you move between different locations.

Whether it's working in a coffee shop, while traveling, or at home, the iPad can transform from a content consumption device to a powerful tool for productivity. It's no surprise then that more than 71% of employees spend over two hours a week accessing company information on mobile devices<sup>1</sup> and that workers are more productive when they can use their own device and mobility is encouraged<sup>2</sup>.

Logitech's portfolio of accessories for iPad drive productivity and creativity in many ways, from providing comfortable, reliable typing on a physical keyboard, added precision with a trackpad, better ergonomics with a mouse, simplified sketching and note-taking with Logitech Crayon, to wireless charging and device protection with a full range of keyboard cases.

**Logitech has a complete family of mobility solutions to help you work harder, faster, and more comfortably wherever you are.**

# LOGITECH PRODUCTS FOR iPad

Logitech solutions for iPad are designed to meet the needs of a wide range of users and use cases. In addition to keyboard cases, Logitech also offers iPad-specific accessories to further enhance productivity and creativity. With the Crayon digital pencil, Keys-To-Go wireless keyboard, and Logitech Pebble portable mouse, you can effectively turn your iPad into a laptop or digital sketchbook that enables you to work, collaborate, and create from anywhere.

## TOOLS TO ENHANCE YOUR iPad EXPERIENCE

## KEYBOARD TYPES

### Integrated Keyboard

An all-in-one keyboard and cover that can be positioned for typing watching videos, and other activities.

### Detachable Keyboard

A two-part keyboard and case that allows you to use your iPad on its own for sketching and note taking or attached to the keyboard for typing.

## POWER & CONNECTIVITY TYPES

### Bluetooth®

Set up the low power, wireless Bluetooth connection once and your keyboard will automatically connect every time you click your iPad into typing mode.

### Smart Connector®

Smart Connector technology enables the keyboard case to connect automatically and source power directly from your iPad with no need for batteries.

### Coin Cell Batteries

Coin cell batteries can be used for up to four years without needing to be replaced\*

\*Based on 2 hours use per day

# EXPAND YOUR POTENTIAL WITH iPad ACCESSORIES

To support work from anywhere productivity, Logitech provides powerful accessories for iPad to enhance your experiences. Whether you need to sketch out ideas, whiteboard with others during an online meeting, require precision cursor control on the move, or want to use your iPad as a second screen while keeping it charged, Logitech has you covered.

## LOGITECH CRAYON

Logitech Crayon expands the use of your iPad, enabling you to write and take notes naturally, sketch, mark up PDFs, and whiteboard concepts with colleagues. With no Bluetooth setup required, Logitech Crayon allows you to switch it on and instantly write directly into search fields, draw shapes, and use gestures to delete, add spaces, highlight, and select text. It uses palm rejection technology to avoid accidental taps and touches and offers a long, 7.5 hours of battery life. Logitech is the only third-party to use Apple Pencil® technology, which makes Logitech Crayon ideal for those looking for a cost-effective digital pencil that's not only durable but easy to use.

- ✓ **Compatible with all iPads made in 2018 or later, including iPad, iPad Air, and iPad Pro**
- ✓ **Ready to use instantly with no Bluetooth set up required and 7.5-hour battery life**
- ✓ **Prepared for anything, thanks to its 4ft drop protection and anti-roll shape**

## LOGITECH PEBBLE i345

The Logitech Pebble i345 is a portable mouse ready to travel anywhere. It can be quickly connected to your iPad to deliver comfortable, desktop-style cursor control when working from home or on the move, tracking quickly and accurately on a wide range of surfaces. Small enough to fit in your pocket but powerful enough to boost your productivity, Pebble is the perfect pointing partner for your iPad.

- ✓ **Smooth organic shape that feels great in the hand**
- ✓ **Silent clicking and scrolling for fast work without disturbing others**
- ✓ **Simple Bluetooth connectivity with up to 10m range**

# ELEVATE YOUR EXPERIENCES

Logitech mobility products are designed to take the functionality of your devices to new heights, providing comfort and convenience while boosting productivity and mobility. With unique features and award-winning design, Logitech accessories extend the functionality of your iPad, transforming it into a creativity and productivity machine.

- ✓ **Flexibility** to take your work with you as you move around the house
- ✓ **Outstanding experiences** from leading technology like Smart Connector, Multi-Touch, and Apple Pencil
- ✓ **Easy to use** tools that are simple to set up and instantly familiar
- ✓ **Modern, sleek design** that complements your devices and looks great in any space
- ✓ **Safe and rigorously tested** devices that are perfectly suited to WFH environments
- ✓ **Made to last** products designed and constructed for heavy daily use at home or on the go
- ✓ **Power management** features that enable you to work as long as you need to

Amp up your workday with Logitech mobile solutions designed with today's users in mind [www.logitech.com/mobile](http://www.logitech.com/mobile)
