

WIN BIG IN FEDERAL WITH TAA/NDAA COMPLIANT VIDEO COLLABORATION SOLUTIONS

As data security threats and the demand for virtual interaction become more prevalent in the government sector, it is increasingly important that IT decision makers have the ability to equip their employees and their communities with technology that is designed with security in mind.

To empower government entities to collaborate more effectively and more securely—both internally and with constituents—we've expanded our portfolio of TAA and NDAA compliant video collaboration solutions.
