## Avrio Police-Ready Active Shooter Training Bundle

Step into the future of security preparedness with Avrio's comprehensive Active Shooter Training in Augmented Reality (AR) with Magic Leap. The training application provides a cutting-edge learning experience that goes beyond traditional training methods, covering incident command training and de-escalation techniques. Avrio's software offers unparalleled realism, enabling participants to develop increased muscle memory of their surroundings, a crucial element in high-stress situations. With an adaptive platform, instructors have full control over the training exercises, tailoring scenarios to specific needs and ensuring a dynamic and engaging learning environment.

The Police-Ready Active Shooter Bundle is used to train for:

**Watchword (Force-on-Force and De-Escalation):** Take training out of practice facilities and into the real-world environments in which officers experience targeted hazards using customizable, immersive and responsive drills. These solutions also grant agencies safety and the flexibility of cost and time to allow trainees to drill high-risk, low-occurrence training.

**StratScape Strategic Tabletop Exercise (TTX):** Train personnel on resource deployment and management for law enforcement and active shooter drills. Elevate your organization's safety protocols and empower your team with the skills and confidence needed to handle any security challenge.

You can purchase Avrio solution bundles from TD SYNEX.

**We offer standard bundles with either standard or TAA compliant weapon attachments.**

- Bundles with TAA compliant weapon Bluetooth attachments
- Bundles with non-TAA (standard) compliant weapon Bluetooth attachments

Select your table once you identify whether you need a TAA compliant or standard attachment.

### Tablet Options<sup>1</sup> for Instructor Use:

Select your preferred Samsung tablet:

- Samsung Galaxy Active3
- Samsung Galaxy Active4
- Samsung Galaxy S6 Lite
- Samsung Galaxy S8

<sup>1</sup> Subject to availability.

Avrio also supports Android, Apple (Silicon SoC) and Windows (Windows 11) for instructor uses.

## Bundles With Non-TAA Compliant Weapon Attachments

TD SYNEX offers bundles with non-TAA compliant weapon attachments and several tablet options. Each Avrio bundle includes the Magic Leap 2 headset and software licenses as detailed in the table titled “What’s Included in the Avrio Bundle.”

SKU	Model #	Contents				
		Core Bundle Contents	+	Weapon Attachment	+	Samsung Galaxy Tablet <sup>2</sup>

<b>Weapon Attachments</b>	2x Bluetooth weapon attachments (weapons are separate)  Select between TAA and non-TAA compliant
<b>Tablet</b>	Option of 1x Samsung tablet <sup>4</sup>

## Tailor Your Bundle

Weapon attachment options — TAA compliant or standard (non-TAA compliant)

Magic Leap 2 is a Trade Agreements Act (TAA) compliant device that can be paired with TAA and non-TAA compliant weapon attachments.

Each bundle includes two Bluetooth weapon attachments (weapons are separate). Magic

<sup>4</sup> *Subject to availability.*

Leap 2 is a TAA compliant device that can be paired with TAA and standard (non-TAA compliant) weapon attachments.

Under the Trade Agreements Act (TAA), the U.S. Government must acquire only end products which are wholly made or substantially transformed in the United States or a “designated country” (countries with whom the United States has a free trade agreement).

## Upgrade Your Magic Leap 2 Edition

Each bundle comes with two Magic Leap 2 Base Edition devices (headset, compute pack and controller). Organizations can update to Developer Pro or Enterprise editions.

- **The Base Edition** does not provide developer tools but includes commercial deployment rights.
- **The Enterprise Edition** includes developer tools and allows organizations to deploy at scale with commercial deployment rights.
  - Pre-configured and loaded Magic Leap 2 Enterprise Edition
  - Includes a pre-loaded Enterprise Edition license
  - Magic Leap 2 device (headset, compute pack and controller) hardware and operating system
  - Each bundle includes accessories:
    - 2x chargers, 1x carry case, 2x shoulder strap, 2x overhead straps, 2x wrist straps and a Fit Kit with extra nose pieces and forehead pads
  - 16-character license key delivered electronically via email
  - Includes full Enterprise feature list plus commercial deployment rights for two years — must be renewed before the end of second year
  - All renewals are one-year terms
- **The Developer Pro Edition** includes all the features of the Enterprise Edition and commercial deployment rights are not included.
  - Pre-configured and loaded Magic Leap 2 Developer Pro Edition
  - Includes a pre-loaded Developer Pro Edition license
  - Magic Leap 2 device hardware and operating system
  - Each bundle includes accessories:
    - 2x chargers, 1x carry case, 2x shoulder strap, 2x overhead straps, 2x wrist straps and a Fit Kit with extra nose pieces and forehead pads
  - 16-character license key delivered electronically via email (end-user email is required for email distribution)

## Akular Bundle Packs

Akular on Magic Leap 2 empowers developers, contractors and building operators to integrate cutting-edge, immersive 3D BIM models and contextual, relevant information into physical sites, accelerating construction processes, reducing costs and maximizing efficiency.

To view more on how Magic Leap and Akular are transforming the construction lifecycle with AR, view the case study at <https://www.akular.com/magic/>.

TD SYNEX offers four bundle packs:

- **Pilot Pack (Does not include Magic Leap 2)**
  - Specially curated for those new to the world of AR, VR and 3D modeling
  - Designed for small-scale projects or proof-of-concept trials, offering basic but essential features across all phases
- **Essential Pack (Does not include Magic Leap 2)**
  - The Essential Pack serves as the perfect gateway into the realms of AR, VR and 3D modeling
  - Offers all the foundational features you'll need to kickstart your venture into the digital dimension, all at an accessible price point
- **Advanced Pack With Magic Leap 2**
  - This package elevates your offerings by integrating higher-end features, multiple system integrations and extended support
  - Ideal for organizations looking for a balance between cost and advanced functionalities
- **Enterprise Pack With Magic Leap 2**
  - Ultimate solution for large corporations and complex projects
  - This pack is geared toward organizations that require extensive customization, enhanced security and a plethora of integrations for a fully integrate project ecosystem

## Feature Descriptions

- **AR Viewer app:** An introductory AR viewer for mobile devices, letting workers visualize 3D models in real-world settings
- **QR codes:** Allows for precise and instant AR overlay of the reality
- **Limited cloud storage document sharing:** Limited cloud storage for storing essential documents among team members, including shop drawings, RFIs and procurement documents
- **Heatmap Lite:** Heatmap analytics to understand space utilization and efficiency
- **IoT integration:** Allows for basic IoT features to connect to smart devices and systems within the building
- **Revit plugin:** Instantly digitize your model updates
- **Navisworks by Autodesk:** Project review software with 3D modeling for businesses in the architecture, engineering and construction industries
- **BIM and ITWIN integration:** Document sharing and collaboration, issues and BMS integration
- **Aconex:** Collaboration technologies for project information and process management
- **Primavera P6:** Enterprise project portfolio management

## Optional Services

Available options on all packages, based on complexity and provided as a one-time fee.

- **Custom integration**
- **Data migration**
- **Digital transformation consulting**
- **On-service deployment**
