

# Windows 11 Pro

Empower possibilities with modern devices designed for hybrid work

**53%** of remote-capable employees expect a hybrid work environment.<sup>1</sup>

## Introducing Windows 11 Pro: Our most secure and intuitive Windows to date

New devices with Windows 11 Pro are designed for hybrid work, with a solid focus on what small and medium businesses care about: getting work done remotely and securely. They're intuitive to use, easy to manage, and secure for all.

## Accelerate productivity

New, modern Windows 11 Pro devices are full of new features so you can work better, not harder.

- A centered Start and taskbar
- Snap layouts<sup>2</sup>
- Personalized widgets<sup>3</sup>

**34%** of SMBs report improved productivity using Windows 11 Pro<sup>4</sup>

**36%** reduction in time getting work done with Windows 11 Pro<sup>4</sup>

## Collaborate with more confidence than ever

Now, you can make all your meetings more effective, with intelligent collaboration features built in.

- Simple, streamlined conferencing<sup>5,6</sup>
- One-click mic control and app sharing from your taskbar
- Noise canceling and dynamic background blur

**73%** of employees want flexible remote options<sup>7</sup>

**60%** of businesses feel Windows 11 Pro leads to better teamwork<sup>4</sup>

**99.6%** of Windows 10 apps work on Windows 11 Pro<sup>8</sup>

**30%** less time spent setting up Windows 11 Pro<sup>4</sup>

**66%** of SMBs think easier migration is a top benefit of Windows 11 Pro<sup>9</sup>

## Manage your modern devices with familiar, easy-to-use tools

With Windows 11 Pro, you'll get a modern experience delivered with familiar cloud tools and zero-touch provisioning.

- Apps that work on Windows 10 and Windows 11<sup>10</sup>
- Anywhere device management<sup>11</sup>
- Zero-touch deployment with Windows Autopilot
- Efficient updates

## Strengthen security right out-of-the-box

Your people can work anywhere with data and access that's protected by the most secure Windows yet.

- Comprehensive hardware-based security
- Robust security across all your apps
- Identity and data protection for all users
- Secure cloud services

**75%** of decision-makers feel hybrid work makes them more vulnerable to security threats<sup>12</sup>

**80%** of companies say that software alone cannot protect against emerging threats<sup>12</sup>

**69%** of SMBs say new devices can provide better security and data protection<sup>4</sup>
