\*The Total Economic Impact™ Of Microsoft Teams Devices, a commissioned study conducted by Forrester Consulting, January 2021 Forrester)

As people return to offices, many will continue to work from home. In this hybrid workplace, how do we ensure everyone can fully participate and feel included in meetings? With Microsoft Teams Rooms you can turn any room into an easy-to-use and inclusive collaboration space where everyone has a seat at the table and can fully participate, regardless of where they sit. Teams Rooms are thoughtfully designed to be easy to use, inclusive, flexible, and secure and managed.

**Easy to use**  
Deliver consistent Teams experiences designed to make collaboration easy and hassle-free

**Inclusive**  
Foster inclusive and interactive meetings for everyone, regardless of where they are

**Flexible**  
Turn any shared space into a Teams room with a wide selection of devices to fit every need

**Secure and Managed**  
Keep devices secure, reliable, and up to date with rich management capabilities

## Microsoft Teams Rooms | features and benefits

**1**

### Easy to use

- Adapt easily with native Teams controls that are predictable and simple
- Join in seconds with less devices: one touch join, touch-free with proximity join and voice controls

**3**

### Flexible

- Solutions for any budget and any workspace
- Connect to 3rd party meeting platforms like Zoom and Cisco Webex through Direct Guest Join

**2**

### Inclusive

- High quality audio and video so everyone feels heard
- Return to work safely: touchless experiences and occupancy controls
- Attributed transcription via intelligent speakers

**4**

### Secure and Managed

- Purpose built for shared meeting experiences with privacy in mind
- Enhanced manageability reduces support costs for on-site visits to debug, diagnose, and update peripherals
- Scale and optimize your spaces with greater telemetry and rich reporting

Microsoft Teams powers hybrid work, providing a platform for inclusive and collaborative connections backed by the security of the Microsoft cloud. Premium audio and video capabilities from certified first and third-party hardware with a native, purpose-built app built specifically for Teams optimizes the meeting experience.
