F·T·N

Powering Business Worldwide

Power and protect

Provide efficient, manageable and scalable power distribution, regulation and backup. Support 24x7 operation, prevent downtime and preserve business continuity.

UPS battery backup systems

Office/desktop UPS

Network/server UPS
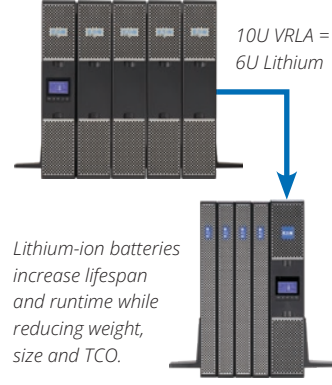

Facility/data center UPS
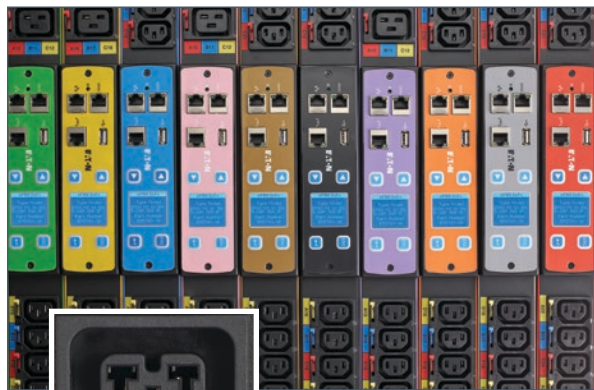

Emergency lighting UPS

Industrial UPS

Lithium-ion batteries

10U VRLA = 6U Lithium

Lithium-ion batteries increase lifespan and runtime while reducing weight, size and TCO.

Rack PDUs & ATS

- Non-networked
  - Basic, local metered
- Networked
  - Metered, managed/ switched, configurable
- Automatic transfer switch (ATS)
  - With or without network
- Vertical (0U) and horizontal (1U/2U) form factors

Flexible C39 outlets combine C13 and C19 outlets.

Power and protect

Energy storage solutions

Floor-standing PDUs and transfer switches

Busway systems

Surge protective devices (SPD)

Surge protectors

Power strips

Charging stations and carts

EVCI (Electric vehicle charging infrastructure)

- Vehicle charging stations
- Energy storage
- Remote management

Power inverters

Healthcare power solutions

- Meet medical-grade standards like UL 60601-1, UL 1363A and UL 2930
- Support code compliance inside and outside patient care vicinities
- Include UPS systems, surge protectors, power strips, isolation transformers and hospital cart power supplies
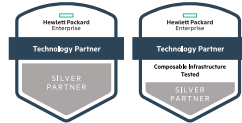

Manage

Remotely monitor, control and analyze power, equipment and infrastructure.

Brightlayer software

Brightlayer
Data Centers suite

- Disaster avoidance
- Advanced alerts
- HCI integration
- Remote monitoring
- DCIM
- Predictive analytics

More than 500 hours of validation testing with alliance partners ensures seamless compatibility with leading IT infrastructures, including virtualization platforms.

Network management cards

- UL/IEC-certified cybersecure
- Secure-by-design product development
- UL-accredited cybersecurity labs

Environmental sensors

- Temperature, humidity and dry contact status

KVM switches

- Rack KVMs
- Console KVMs
- Desktop KVMs
- Secure KVMs

Console servers

- With or without cellular network access

Secure and organize

House equipment and route cabling safely and efficiently.

Server racks and enclosures
- 12U to 58U

Wall-mount racks and cabinets
- 2U to 26U

Cable management

- Rack-mounted rings and finger ducts
- Ladders
- Channels
- Runway
- J-hooks
- Trays
- Baskets
- Supports
- Cable hooks

Micro data centers
- Rack, power, cooling
- Containerized modular data centers also available

Data center cages
- Increase security and subdivide multi-tenant/colocation data centers

Cool

Manage airflow and optimize efficiency while maximizing performance.

Server rack cooling systems
- Portable, in-row, rack-mounted

Aisle containment

Rack containment

Connect and enhance

Connect devices to high-speed networks and data while improving features and usability.

Copper network cables

Choose from thousands of connectivity options:

tripplite.eaton.com/ cablefinder
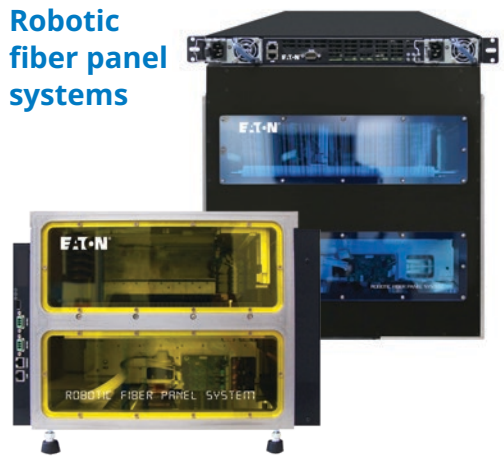

Bulk cabling

Fiber network cables

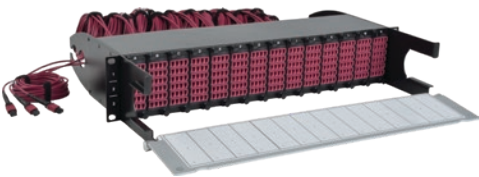

Copper patch panels

Robotic fiber panel systems

Fiber patch panels

Ethernet switches

PoE solutions

Faceplates and boxes

Transceivers

Media converters

Network tools and testers

Connect and enhance

Pro audio/video and digital signage solutions

USB cables, adapters and extenders

Power cords

Laptop docking stations

USB hubs and switches

USB and wireless chargers

Adjustable-height workstations

TV/monitor carts

TV/monitor mounts

Command consoles and technical furniture

Service

Optimize performance, minimize downtime and extend service life.

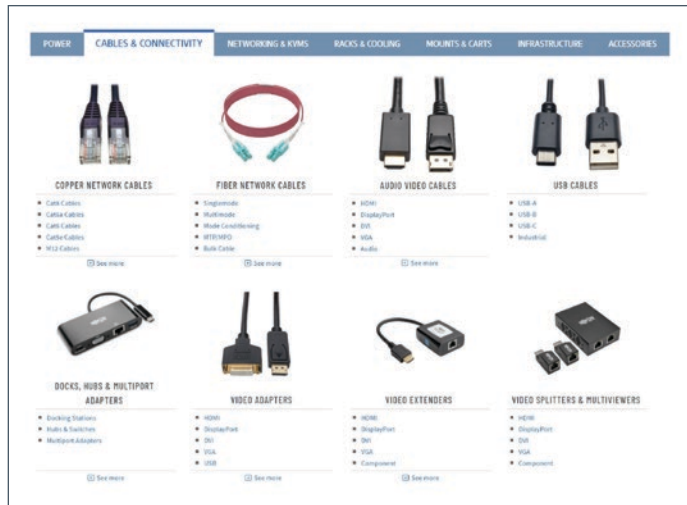

UPS and battery services

Replacement batteries

Extended and onsite warranties

Remote monitoring and emergency response

TRIPP·LITE
by EAT•N

The acquisition of Tripp Lite in 2021 greatly expanded the selection of distributed IT infrastructure and connectivity solutions available to Eaton customers.
