140ppm ADF
PA03800-B005
Daily Duty 120,000

100 ADF Capacity   Wi-Fi   Ethernet

Our software complements our industry-leading hardware with high-quality, intelligent, scalable imaging solutions.

PaperStream

IP

PaperStream IP TWAIN and ISIS drivers apply image correction for fi-Series scanners, so documents are converted to high-quality images in small sizes.

ClickScan

Included with fi and SP Series scanners, PaperStream ClickScan delivers scanning simplicity and works alongside of any workflow. Simply place paper in the scanner, push the scan button, and send to email, print, or folder.

Capture

Included with the fi Series scanners and built on TWAIN and ISIS drivers, PaperStream Capture front end software delivers enhanced images.

Capture Pro

PaperStream Capture Pro provides superior front end capture, image processing, and options for enhanced data extraction and indexing for release.

NX Manager

NX Manager is the ideal solution when scanning from multiple locations. The secure, enclosed platform integrates with backend software, reducing the need for computer hardware by sending critical data directly to your server or cloud, all through a centrally managed platform.

Included with fi Series, Scanner Central Admin supports management of multiple fi Series scanners over a network. Monitor scanner status, perform simultaneous driver/software updates, migrate settings, and manage users, all from a dashboard.

EASY NX CONNECT

Enjoy fast login to scan directly to Active Directory email, folder, or popular cloud repositories.

EdgeXperience Capture Service

EdgeX is a cloud document digitization platform that allows PC-less scanning, centralized management, and the ability to control infrastructure costs as companies grow and evolve.

Genuine Service — 100% US-BASED SERVICE

Get the most out of your investment with a Service Plan.

While most organizations purchase Service to avoid costly downtime and to ensure their scanners, they renew because of the predictability of costs and the unexpected joy of working with our Certified Technicians.

ScanCare

ScanCare is a premium scanner service combining preventative maintenance, scanner consumables, and training.

Basic

This on-site service program includes parts, labor, travel, and a cleaning event.

Depot

The Depot service program provides mail-in unit repair service for customers who require asset tag tracking or prefer to retain their existing scanner.

Advance Exchange

Advance Exchange offers whole-unit, next business day replacement for scanner equipment that cannot be repaired through technical support.
