

Repair and Sustainability Services

Reliable, end-to-end repair services that scale with your business

Managing product repairs can be complex and costly for channel partners, often requiring parts availability, logistics coordination, service capacity and fast turnaround times, **all while meeting customer expectations.**

TD SYNEX Services helps partners **simplify support** by providing scalable, efficient repair and asset disposition service capabilities that protect customer relationships, **enable business growth** and promote **positive environmental outcomes.**

Business Outcomes You Can Trust

TD SYNEX Services' repair and sustainability services, trade-in programs and responsible IT asset disposition focus on extending the longevity of your solutions to **maximize IT asset value, reduce environmental impact** and **improve customer satisfaction.**

Deliver consistent, high-quality repair experiences

Boost both customer confidence and experience

Tap into robust hardware trade-in programs

Optimize your IT hardware asset value

Unlock scale in your operations and logistics strategy

Key Services Capabilities

From repair to spare parts management, TD SYNnex Services has you **covered**.

Depot Repair Management

Complete repair lifecycle support, from intake and diagnosis to repair, testing and return

Spare Parts and Inventory Management

Scalable spare parts planning and stocking-level maintenance that supports growth while controlling costs

Responsible IT Asset Disposition

Secure and compliant disposition of end-of-life or non-repairable assets, including data erasure and e-recycling
