

Great Lakes Data Racks & Cabinets by Vertiv

Infrastructure built for modern IT demands.

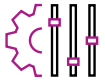

Complete rack & containment portfolio

With the addition of the Great Lakes Data Racks & Cabinets portfolio, Vertiv can now offer complete 2-post, 4-post, wall mount, racks, enclosure, and containment solutions.

Integrated power solutions

Vertiv now offers integrated rack and containment solutions with built-in power products, including rPDUs and single-phase UPSs, delivering faster deployment, simplified serviceability, and lower overall costs.

Highly customizable & scalable

Vertiv's rack solutions deliver a highly customizable and scalable infrastructure platform for enterprise, edge, OEM, and unique customer requirements, backed by our end-to-end portfolio and support organization.

Improved manufacturing & lead times

Recent investments in manufacturing capacity at Vertiv's rack headquarters in Edinboro, PA, means stocked rack and containment products are available for shipment within 24–48 hours from Vertiv's Edinboro, PA and Reno, NV facilities.

Great customer experience

Fast

Fast manufactured: Automated, sophisticated machinery combined with a great team certifies that standard and custom products are made in the most efficient way possible.

Fast shipping: 24–48 hours on all in-stock products. Distribution facilities in Edinboro, PA & Reno, NV

Flexible

Flexible products: Engineered to give you nearly endless options, “have it your way.”

Flexible designs: Integrated product designs, allow accessories to be installed (often with no tools!) across multiple product lines.

Flexible integration: Stack integration services means, prior to shipping, we set up a standard or custom product with accessories and a “move in ready” product is delivered to your door.

Easy

Customer service: M-F 8 a.m. to 5 p.m. EST.

Easy freight protection: Our No-Hassle Freight Protection gives you 72 hours to inspect for any shipping damages; if you find something, anything, Vertiv takes full responsibility for return and replacement.

Easy serialization: All products receive a GL serial number enabling fast, easy reference. Our serial numbers provide a list of extensive information.
