

# Smarter video and audio for connected campuses

Engaging hybrid learning and collaboration in every room.

Students, faculty, and staff now connect from classrooms, study spaces, offices, and home. Jabra delivers intelligent video and audio that make teaching, learning, and meetings clear, natural, and effortless — **so being remote feels as close as being in the room.**

## WHY JABRA FOR HIGHER EDUCATION

### Full-room video and audio

- Ultrawide view and smart framing keep everyone in shot.
- Clear audio so on-campus and remote students hear and are heard.

### Simple “plug and teach” workflows

- Faculty plug in a laptop, open Teams or Zoom, and start.
- Everyday classes run without retraining or extra AV support.

### Easy to standardize and scale

- Works with platforms already in use across campus.
- Repeatable room designs for classrooms, seminar rooms, study spaces, and offices.
- Fewer “room not working” tickets and lower overall AV costs.

## KEY USE CASES

### HyFlex & flexible classrooms

- Turn everyday classrooms into HyFlex spaces where faculty plug in laptops and run classes with full-room video and audio, so in-person and remote students can see and engage with each other.

### Seminar & discussion rooms

- Wide field of view and smart framing keep everyone around the table visible.
- Remote students and guest lecturers can participate fully in discussion-based teaching.

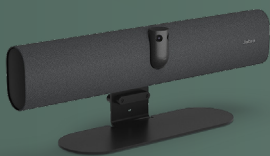

### Group study & collaboration spaces

- Students connect personal devices and bring remote teammates into group work in seconds.
- Standardized kits provide a familiar experience across libraries and other learning spaces.

### Faculty offices, advising & governance

- Video-enabled offices for office hours, advising, mentoring, and committee work.
- Support commuters, working students, online learners, and cross-campus councils and boards.

## Designed for today’s campus

### PANACAST VIDEO SOLUTIONS

Intelligent video bars and cameras for classrooms & meeting spaces, plus personal video—keeping everyone in view.

### JABRA SPEAK SERIES

Speakerphones for small rooms, study spaces, and ad-hoc hybrid meetings, providing clear audio for quick collaboration.

### JABRA EVOLVE / ENGAGE SERIES

Professional headsets for advising centers, service desks, and staff who spend their day on calls and online meetings.
