

Smarter video and audio for connected care

Making virtual care feel as personal as being in the room.

Care teams need video and audio they can trust. Jabra helps healthcare organizations connect clinicians, patients, and partners from everyday spaces — exam rooms, nurses' stations, team rooms, offices, and command centers — **so conversations stay clear, natural, and human.** With high-quality audio and video, simple workflows, and integration with leading platforms, Jabra improves the experience for patients, clinicians, and IT.

WHY JABRA FOR HEALTHCARE?

Better conversations, better experience

- Clear voices and high-definition video
- Patients feel seen, heard, and understood
- Clinicians can focus on care, not equipment

Built to scale

- Centralized device management for AV fleets
- Standardized room setups across sites and departments
- Fewer “room not working” issues and simpler training

Simple, reliable workflows

- Tools that “just work” in daily workflows
- One-touch or single-step join with familiar platforms (Teams, Zoom, etc.)
- Staff can start calls quickly from exam rooms, team rooms, and offices without waiting on IT

KEY USE CASES

Telehealth & virtual visits

- Video visits that feel close to in-person
- Remote specialty consults and follow-ups
- Family and caregiver participation from home

Care teams & collaboration

- Exam and team rooms that add remote colleagues or students in seconds
- One-touch access to case conferences, teaching sessions, and multidisciplinary huddles

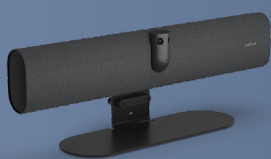

Operations & leadership

- Command centers and bed management rooms
- Cross-site leadership, quality, and service-line meetings
- Reliable AV without needing dedicated “special” rooms

Admin & patient access teams

- Professional headsets and speakerphones for schedulers and contact centers
- Noise control and all-day comfort for high-volume callers
- Clear, professional interactions at the first point of contact

Designed for today's hybrid healthcare

PANACAST VIDEO SOLUTIONS

Intelligent video bars and cameras for exam rooms, team rooms, and command centers, plus personal video for clinicians and leaders.

JABRA SPEAK SERIES

Speakerphones for huddle spaces and small meeting rooms, supporting quick consults and team check-ins.

JABRA EVOLVE / ENGAGE SERIES

Professional headsets for contact centers, scheduling, and patient access teams, combining comfort, noise control, and call clarity.
