

## Mission-Ready Memory and Storage for Government IT

Secure, reliable, and high-performance solutions from Kingston Technology designed to support the demanding requirements of federal, state, and local government environments. Kingston delivers TAA-compliant DRAM, Flash, and SSD solutions built to support Public Sector data centers and end-user computing environments while meeting strict government security and procurement standards.

### Why Government Agencies Choose Kingston

Security-Focused Solutions	Mission-Critical Performance	Reliability You Can Trust	Trusted Global Brand
Hardware-encrypted storage solutions help safeguard sensitive data used across government agencies.	High-performance DRAM and SSDs improve responsiveness and reliability across data centers and endpoint devices.	Kingston products undergo rigorous compatibility and reliability testing across leading OEM platforms.	With more than 35 years of innovation, Kingston is one of the world's most recognized memory and storage providers.

### Kingston Solutions for the Public Sector

<b>Server Memory – Server Premier DRAM</b> Enterprise-grade DRAM designed for mission-critical servers powering government data centers.	<b>Data Center &amp; Client SSDs – DC Series</b> Reliable solid-state storage delivering performance and endurance for demanding workloads.
<b>Encrypted Storage – IronKey &amp; Secure USB</b> Hardware-encrypted storage solutions designed to protect sensitive data in transit and at rest.	<b>Client Memory Upgrades</b> Cost-effective DRAM upgrades that extend the lifecycle of government desktops and laptops.

### Public Sector Compliance & Procurement

**TAA Compliance:** Most Kingston DRAM, Flash products, and SSDs are TAA-compliant, guaranteeing compliance with the rigorous standards required for federal sector use.

**GSA Schedule:** Kingston's GSA schedule is held at TD SYNEX, enabling TD SYNEX partners to easily access and purchase Kingston products through the GSA Pass-Through Program.

**SEWP Contract:** Kingston products are available through the SEWP (Solutions for Enterprise-Wide Procurement) contract.
