Increase Your Profit

You gain all the leverage when you bring pricing off the table. You keep your margin, and the customer walks away happy.

- Create stickiness and loyalty
- Preserve margin and grow the size of your deals
- Give yourself the competitive edge
- Receive full revenue recognition on multi-year deals

All your customers will need financing eventually. Don't be the one that doesn't offer it.

100% Software Financing

TD SYNEX Capital offers financing for deals consisting of 100% software and/or services. This is valuable to your customers because it helps them avoid a large capital expense upfront and matches payments to usage. Additionally, clients can leverage the multi-year discounts a vendor may be offering and still stay within budget.

Private Label

We strive to make leasing and financing easy. One of the ways we accomplish this is by giving our resellers and vendors the option to private label (white label) our solutions. This allows you to offer a full portfolio of payment solutions to your customers under your branding. It saves you time and money and helps fulfill the needs of your customers. Private label options include:

- Our agreements and your branding
- Embedded Terms in your sales quote
- Embedded Terms in a Customer Agreement (like a End User License Agreement or Master Purchase Agreement)
