TD SYNNEX | Windows 11

Choose Your Own ~~Device~~ Destiny.

Refresh with Windows 11 Pro: A secure, AI-ready platform built for enterprise work.

Every device refresh shapes how you work for the next several years. Windows 11 Pro brings enterprise AI, built-in security and simplified management together in one platform, so your organization can modernize confidently, support employees effectively and stay ready for the next era of insights and innovation.

Why Windows 11 Pro?

Windows 11 Pro is one of the only platforms pairing enterprise AI with enterprise control. That means:

AI that's ready for work.

Copilot is built into Windows 11 and Microsoft 365. That means it's enterprise-ready today, ensuring you work smarter withAI experiences designed for productivity.

Security that's built in.

Windows 11 Pro includes hardware-based protection out of the box, reducing your reliance on a patchwork of third-party tools.

Control IT really wants.

Native Entra ID, Intune and Defender management help your IT team manage devices from one console and reduce admin efforts.

The impact is in the numbers.

Microsoft Windows 11 offers more than AI tools. It delivers results:

62%

Fewer security incidents compared with Windows 10.[1]

99.7%

Of Windows 10 apps run on Windows 11 Pro.[2]

70%

More productivity with Copilot built into Windows 11 and Microsoft 365.[4]

5 hours saved

Per employee each week on Copilot+ PCs.[3]

Up to 50%

Less help-desk effort, helping IT teams reclaim time.[3]

Up to 30%

Less device management time with modern management tools.[3]

TD SYNNEX | Windows 11

What does your organization gain?

Performance and choice

Top Copilot+ PCs outperform competitors, across more form factors, price points and upgrade paths.

AI readiness

Copilot is built into Windows 11 and Microsoft 365 today, while Copilot+ PCs add on-device processing that works offline.

Management at scale

Cloud-native Intune, Entra ID and Defender help manage the whole fleet from one console.

Cost and support efficiency

OEM options like HP, Lenovo, Dell and more keeps pricing competitive, while cloud management reduces help-desk effort.

Build the whole refresh offer with TD SYNNEX.
